

Bug Report

Title Demo Wep Shop

Link:-[Demo Web Shop](#)

Bug Report 1

Title: Registration accepts excessively long first name (400+ characters)

Environment:

Website: Demo Web Shop

Browser: Chrome

OS: Windows 10

Test Tool: Selenium WebDriver + TestNG

Severity: Medium

Priority: Medium

Preconditions: User is on Registration Page

Steps to Reproduce:

- Open Registration page
- Enter First Name with more than 400 characters
- Enter valid Last Name
- Enter valid Email
- Enter valid Password and Confirm Password
- Click Register button

Expected Result: System should validate input and display an error message (e.g. First Name length validation).

Actual Result: System accepts the long First Name and allows registration to proceed successfully.

Evidence:

The screenshot shows the 'Register' page of the 'Demo Web Shop'. The page layout includes a top navigation bar with links for 'Register', 'Log in', 'Shopping cart(0)', and 'Wishlist(0)'. A search bar is located below the navigation bar. The main content area is divided into three columns: 'CATEGORIES' (Books, Computers, Electronics, Apparel & Shoes, Digital downloads, Jewelry, Gift Cards), 'MANUFACTURERS' (Tricentis), and 'NEWSLETTER' (Sign up for our newsletter: [input], Subscribe). The 'Register' form is on the right, with sections for 'Your Personal Details' (Gender: Male/Female, First name: AAAAAAAAAAAAAAAAAA, Last name: Mahmoud, Email: user1780621860756@gmail.com) and 'Your Password' (Password: [input], Confirm password: [input]). A 'Register' button is at the bottom of the form. The footer contains links for 'INFORMATION' (Sitemap), 'CUSTOMER SERVICE' (Search), 'MY ACCOUNT' (My account), and 'FOLLOW US' (Facebook).

The screenshot shows the 'Register' page of the 'Demo Web Shop' after a successful registration. The page layout is identical to the previous screenshot, but the 'Register' form now displays a message: 'Your registration completed' with a 'Continue' button. The top navigation bar now shows the user is logged in, with links for 'user1780621860756@gmail.com', 'Log out', 'Shopping cart(0)', and 'Wishlist(0)'. The search bar and other page elements remain the same.

Bug Report 2

Title: Wishlist button is missing on some product pages

Environment:

Website: Demo Web Shop

Browser: Chrome

OS: Windows 10

Test Tool: Selenium WebDriver + TestNG

Severity: Medium

Priority: Medium

Preconditions: User is browsing product listing or product detail pages

Steps to Reproduce:

- Navigate to product listing page
- Select different products
- Observe the presence of "Add to Wishlist" button on each product
- Compare multiple product pages

Expected Result: All products should consistently display the "Add to Wishlist" button if feature is supported.

Actual Result: Some products do not show the "Add to Wishlist" button, causing inconsistency in UI behavior.

Optimize your mobility with a BrightView 14.1-inch display that has the same viewable area as a 15.4-inch screen--in a notebook that weighs a pound less. Encouraging more direct interaction, the backlit media control panel responds to the touch or sweep of a finger. Control settings for audio and video playback from up to 10 feet away with the included HP remote, then store it conveniently in the PC card slot
